Q.

If a McRoberts Manoeuvre is performed to assist a SVD do we code assign O80 Single Spontaneous Delivery or O83 Other assisted delivery?

A.

As per recent NCCC FAQs response, correct code assignment is O83 Other assisted delivery. There will be an edit generated for O83 cases where 90467-00 [1336] Spontaneous vertex delivery is assigned without 90477-00 [1343] Other procedures to assist delivery as an additional procedure.

DECISION

Assign O83 Other assisted delivery in cases where McRobert's procedure is performed (including prophylactic) with a spontaneous vaginal delivery.
